

Supervision Training for Managers

'Too often we settle for 'having supervision' rather than having good supervision - a crucial difference' (Supervision: Now or Never, Wonnacott and Morrison, 2010)

Overview

Supervision supports the delivery of high-quality services to children and families.

Good quality supervision keeps organisations in touch with the work on the ground. It helps staff to focus on the quality of their practice, whilst offering them support and an arena to ask questions or raise concerns.

This training aims to generate positive relationships between supervisor and supervisee and, through these, to inspire and motivate staff in their work.

Method

Training will be delivered using a range of participative methods such as power point presentation, brainstorming, small group discussion and role play.

Participants will be expected to complete an assignment between day two and three of the training.
