

Making the Most Of Supervision Training for Managers

Overview

Supervision supports the delivery of high-quality services to children and families.

Good quality supervision keeps organisations in touch with the work on the ground. It helps staff to focus on the quality of their practice, whilst offering them support and an arena to ask questions or raise concerns.

This training aims to generate positive relationships between supervisor and supervisee and, through these, to inspire and motivate staff in their work.

Participants will be expected to complete a video assignment between day two and three of the training.

Method & Materials

Duration:
3 Days
